

# CONCEPT OF DUA

- Have you ever raised your hands in Dua and wondered who to pray for ?

- It is only human to pray for us alone and ask for everything we can possibly think of.....

- Let us show you a way you can remember to pray for not only yourself but others.

- Everytime you go in sajdah for dua, or raise your hands for dua, let your fingers remind you of everything

1. Let your thumb (the nearest finger) remind you of:

**Your near ones**

2. Let your pointer finger remind you of:

**Those who guided you in the right direction.**

3. Let your biggest finger remind you of:

**The Ulemas and leaders in your community.**

4. Let your Weakest finger remind you of:

**The needy, sick, less fortunate**

5. Let your smallest finger remind you of:

**Your status in front of Allah, now ask for yourself**

**Our 6<sup>th</sup> Imam says:**

“When a Muslim prays for his brother blessings are given to him, troubles are removed, and angels tell him you will also get the same”.
