What I liked the most was ...

15 responses

Lots to learn

Easy access and availability via Internet. Punctuality of teacher.

Story about hadith

Sheikh goes into enough detail without actually overloading the lecture. The balance is very good. He is very encouraging as well.

understanding of hadith, Usul books, historic analysis of canonic books of hadith

Both courses are good

I got to learn the subject in depth with proper ILOs through a well planned n well presented lectures along with ideas n interaction

Shaykh is extremely knowledgable and highly interactive. He wants to ensure everyone is capturing the information and engaged!

Shaykh Kumail's method of explaining concepts

Assignment

everything..every bit of the information is useful

The scholars thinking and studies

specialist knowledge, in-depth

Weekly reminder given through emails

Sheikh Rajani is extremely enthusiastic and engaging. He provides well researched examples and content relevant to ensure all understand the subject matter thoroughly. Sheikh Abbas Jaffer shared wonderful content and a precise understanding related to the sciences of the Holy Quran. I truly enjoyed both classes and learned a great deal. I will continue to tackle both subjects in an ongoing manner as there is much to learn after this introduction within both the areas of Quran and Hadith.

## Please comment on the quality of the webinars. What could we improve on?

11 responses

Try to get the voice louder

Room for improvement as incorrect assumption was made of attendees level of knowledge.

Lot of time in between interactions lead to poor progress .

Prior e mail of course could have lead to better progress thru the lessons.

Level of arabic language expected was too high and has to use google translate.

Nice but if you can do the lesson with PowerPoint its a good support

It's great!

I could not use my mic of my plugged headphone. Is it because of default settings on the webinar platform which either allows telephone or computer speakers only.

Good

Would love to have notes on upcoming class so I can be better prepared for it.

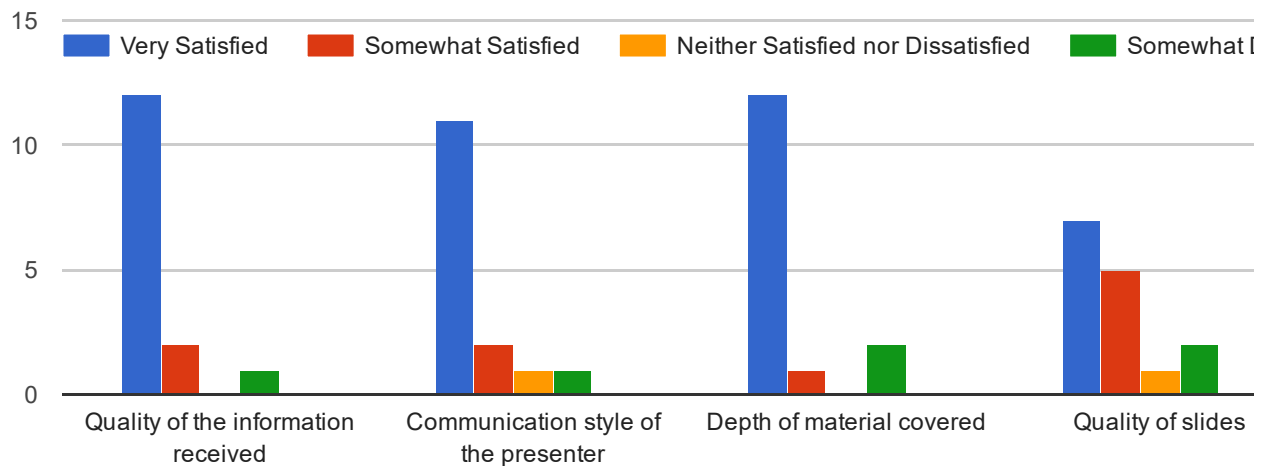

it would be very helpful if the sessions are recorded as the extra information discussed really is helpful

Timing

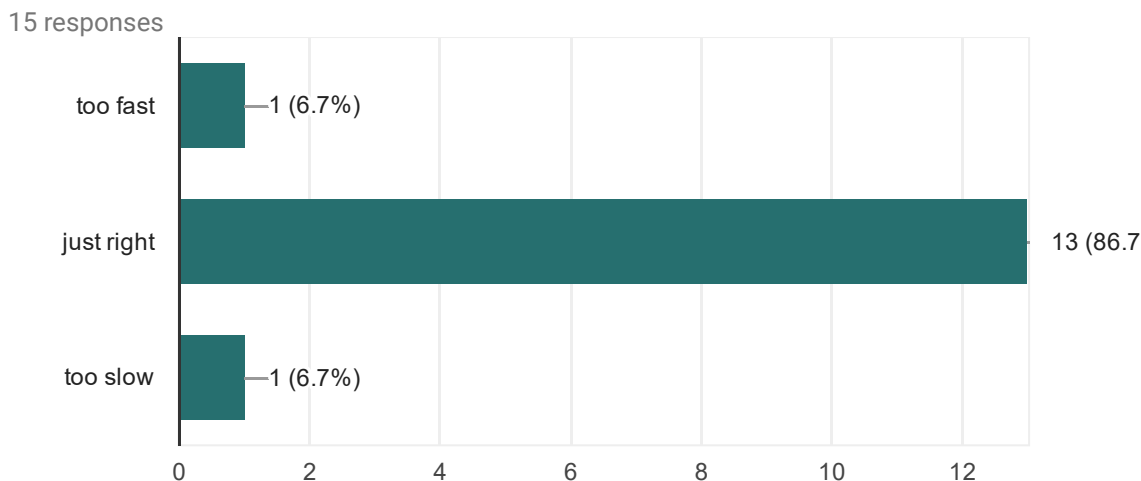

Am unable to go through recordings in my mobile set

Webinars were great! Perhaps recommend some associated texts for us to read to compliment the course studies. I would suggest doing a new series of classes on Tafsir of Quran from a Shia perspective as I think there is a void in that area among our Shia communities.

## Please rate your satisfaction with each of the following aspects of the webinar

## I find the speakers pace...

## Please share any additional comments or suggestions you may have

5 responses

none

At times we cover a lot of information at a rapid pace (esp history & dates); would be helpful to put that in chart form or tabular data on slides etc to help communicate it. Also everyone's background base knowledge is different so helpful to ensure we are defining and explaining key topics to ensure a good

foundation for everyone as we move through the course and new material. Jazakallah, so far the course has been excellent.

i would prefer if more examples of different kinds of ahadith are given in relevance to the topic learnt and wouldn't mind doing homework for strengthening my knowledge

The content was amazing and exactly what I was looking for. The technical issues were hampering. Please can you record and make recordings easily available to enrolled students as the links didn't work. This would help students who miss a session. Please can you have more in depth on hadith to build on this and

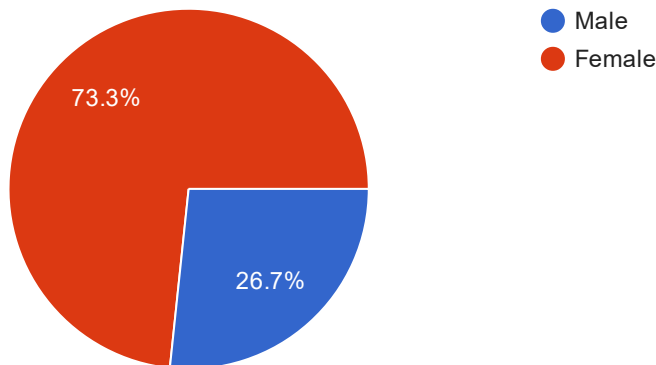

potentially a hawza level in depth - for people like me who live away from London such studies are not easily accessible.

I understand WF are planning other sessions on other topics too - I really look forward to this.

Thank you to Sheikh and all the organizers for bringing such a course to the masses. We need more of these types of ongoing educational classes for us as Shia brothers and sisters so we can continually learn and improve our understanding of this faith. As a madrassa teacher and mother, I am always looking for new ways to learn and gain knowledge. We can't all go to Qum so this method is brilliant! May Allah bless you all and enable you to continue with this noble effort.
