A Short Treatise on The Tablet of Fatimah

A Divine Testimony on the Religious Authority of
the Infallible Imams of the Twelver Shias

The Tablet of Fatimah (ʿa) is a letter of wisdom and power from the Wise and Invincible God to His greatest manifestation in the realm of contingent existence. Having received it in the form of an emerald tablet from Gabriel, the Prophet (s) gifted it to his beloved daughter Fatimah (ʿa), who became the source of its communication to future generations.

The document introduces the guardians of the religion and talks about the tumultuous events that would unfold during their lifetime. Despite its brevity, the document contains an ocean of meaning. By meticulously considering every word used in the document, this short treatise transports the reader to the depths of some of these meanings.

I would highly recommend it
to anyone who desires to have
'ma'rifa' of Ahlul bait (as).
